The ball was opened, as the letter-writers have it, by Mr. McCaxx. He is "a young hand at the bosiness' of political speech-making. this being his first canvass; but having the advantage of a cause which cannot be, or at least has not been, successfully assailed in any of its stronger points by his Breckinridge oppogives to this arrease, and all the consequences growing out or it, brought on in many cases by the destructive the country, and possessing abilities of no mean order, he made a capital speech-a speech with which his personal and political riends were highly delighted.

To the Commissioners of the Capitol GENTLEMEN:-I hope I may be excused for Gentlemen:—I hope I may be excused for addressing you on the subject of the laying out the grounds around the Capital. A very superficial observation of the irregular formation of the bill must convince every person that terracing is the only plan which can be adopted for securing permanency in the improvement; as owing to the rapid fall of the ground, any soil laid on would be washed off by every rain which fell; and owing to the difficulty of preserving a verdent sod from the heat the grass will be exposed to, nothing the heat the grass will be exposed to, nothing but very frequent irrigation can preserve it from being burnt off. It would be very desirable before anything is done, that a competent person, possessing taste and informa- dress the people at the following times and tion, should be employed to furnish a plan, which is important before everything else, it being evident that terracing is the only plan which will effect the object, and consequently the way in which the fence is now being laid would have to be entirely abandoned, as It can never be made to correspond with the grounds. I temain, very respectfully, E.

Another Stan .- For a week or so passed the beautiful star, Venus, has been seen about midday, a little west of the sun, shining as brilliantly as shines many an orb when the sun or moon is not there to pale its ineffectual fires. Turn your gaze to the boards of the Nashville Theatre next Monday night, and you will behold a "star" that shines as brightly in the dramatic firmament as Venus in the material heavens. On that occasion the distinguished tragedian will commence an engagement here. As everybody knows, he is a mong the most gifted American actors. and creates a popular furore wherever he ap-

THE ELECTION TO-DAY .- We need not remind the "independent voters" of the city that they will be "called upon to-day to exercise the glorious right of suffrage." There are four gentlemen in our midst who want to be Mayor and quite a number of them who desire to become a legal part and parcel of the regular meetings of the Common Council and Board of Aldermen. It is your pleasure, fellow-citizens, to vote for all of 'em, but it is not your privilege. The income of the corporation does not justify the employment of more than one Mayor at one time, nor more than a limited number of Councilmen R. McCANN. Esq., Douglas Elector for this things. And not vote away your liberties. If your officers serve you w 11. you can easily re-elect them for another year, but if you elect them for two years you have no control if they should be found extravagant or corrupt. An effort is to be made at this city election to put the Free Schools twice as far from the

control of the people as they are at present. The matter is grossly unjust as it is, but would be made far worse if the time for holding office were extended to two years. Look at it.

We elect men to office for one year; their expired, they elect a Board of Education; ever a more conningly devised plan to the people? The people voic for officers range of requirements in a machine for famifor one year, yet they control the schools for ly sewing, we find more fully combined in two years and nine mouths. Now if you the Grover & Baker-extent of capacity double this length of time by voting to have simplicity of construction, ease of manageofficers elected for two years instead of one, and thereby put the schools beyond vonr control for five years, it may help some to fatten the pocket by the book speculation, but it would be a gross outrage on the pock-

We are authorized to announce WM. H. HORN We are authorized to announce JOHN N. ALEX ANDER, as a condidate for Alderman in the 8rd Ward

Yesterday was the day appointed for the discussion here between Messrs. Landon C. HAYNES, WM. H. POLE and BAILIE PEYTON, Presidential Electors for the State at large, representing respectively the Breekinridge Democracy, the Douglas Democracy, and the Constitutional Union party. Owing to the illiness of a member of Major Polk's family, he was not here to meet his appointment, and his share in the discussion was assigned to J. and Aldermen. But you understand these

who is a possitionably one of the ablest and most pleasing speakers of his party in Ten ressec. There was much of candor and dinity in his speech, which constituted about as favorable an answer to the true-bill which the country has found against his party, as could against him, as is now the case. It requires no little moral courage to stand up in the face of a multitude of intelligent men and attempt to detend the Breckinvidge Democracy against the charge of extravagance and corruption, and of a design to violate the Constitution and dismember the Union, preferred against only difficulty in the pro-ecution of the case lies in the impossibility of finding time to unfold a tenth part of the evidence at hand; cess in the defense of his cause, we must be

Payrov, who spoke with all the fire, the fervency, and the clogaliantly championed the old Whig party in the days of its prime. His speech was indeed worthy of his old renown. It was a masterof some of its most prominent leaders, and a clear, candid and forcible setting-forth of the weighty claims the cause of the Constitu-

JAMES KIDDELL, Architect, Odd-Fellows' Hall. The Ladies have resolved to vote on the Sewing Machine question. They have declared for freedom from letther pads, di-

The Committee appointed by the State Bu. reau of the Seventh Annual State Fair of Tennessee to examine, and make award for the best Family Sewing Machine, find on exhibition the following machines in competition : the I. M. Singer, Wheeler & Wilson, A. B. Howe, and the Grover & Baker. The first three named, although differing in construction and capacity, still so far as the stitch is concerned, all arrive at the same point, making what is called and known as the shuttle sets control our schools for three years. We stitch, each using a shuttle or shuttle and elect the Council in September, and the last | bobbin, upon which all the lower thread, or of June, when nine months of their time has | thread used underneath is required to be respooled. The Shuttle Machine may be used and, strange to say, this Board, one year af- upon some classes of family sewing with s ter, and only two days before their term of degree of satisfaction, but we conceive from office expires, elect a Superintendent and their construction, operation and stitch, their teachers for the next year.
